

¡HOLA!

Nuestra principal actividad es la fabricación e impresión de globos de látex de caucho natural. Somos profesionales con más de 35 años de experiencia en el sector, mejorando sin descanso la relación calidad / precio.

Ofrecemos una extensa variedad de accesorios para globos, desde un cierre rápido que facilita el anudado del globo hasta redes de diferentes tamaños para sueltas y caídas, sin olvidar infladores eléctricos o manuales, contrapesos, bombonas de helio, varillas, soportes y mucho más.

Pocas imágenes simbolizan mejor la alegría, el colorido y la fiesta que unos globos decorando nuestros cumpleaños, aniversarios, inauguraciones, presentaciones de empresa o cualquier evento que queramos resaltar. El impacto visual de un globo queda en nuestra memoria asociado a momentos felices.

Cumplimos con los parámetros más exigentes de la Directiva 2009/48 sobre la Seguridad de los Juguetes (Normativa EN71-1, EN71-2, EN71-3 y la recientemente aprobada EN71-12), tanto en globos como en las tintas utilizadas para imprimirlos. Nuestros globos son fabricados con látex de caucho natural, 100% biodegradables y sin sustancias cancerígenas (Nitrosaminas y Nitrosables).

Estamos certificados ISO9001, garantizando la eficiencia de nuestra empresa, en cuanto a producto, contamos con las certificaciones de laboratorios de reconocido prestigio internacional en el sector, como son TÜV y SGS, disponibles en el momento nos los soliciten.

A lo largo de nuestra trayectoria, hemos afianzado una clientela satisfecha por la proximidad y la agilidad de nuestro servicio, exportando gran parte de nuestra producción a países con alto grado de exigencia.

Nos gusta lo que hacemos, disfrutamos con la elección de cada nuevo color, diseño o modelo de globo, esperamos poder transmitirles con ésta breve presentación nuestros objetivos e inquietudes, reflejo siempre de nuestro esfuerzo y dedicación continua ...

HELLO!

Our main activity is manufacturing and printing balloons made of natural-rubber latex. We are professionals with over 35 years' experience in the sector, constantly working to improve value for money.

We offer a wide variety of accessories for balloons, from fast closing - which makes it easier to knot the balloon - to different-sized nets for releases and landings, as well as electrical and manual inflators, counterweights, helium bottles, rods, supports, and much more.

Few images are more symbolic of happiness, colour, and celebration than balloons as decorations for birthdays, anniversaries, inaugurations, company presentations, or any event that we want to highlight. The visual impact of a balloon remains in our memory as linked to happy times.

We comply with the most demanding parameters of Directive 2009 / 48 / EC on the Safety of Toys (Standard EN 71-1, EN 71-2, and EN 71-3, as well as the recently-approved EN 71-12), in reference to balloons as well as the inks used to print them. Our balloons are made from natural-rubber latex. They are 100% biodegradable, and they do not contain any carcinogenic substances (nitrosamines and nitrosable substances).

We hold ISO 9001 certification, which guarantees the efficiency of our company in respect of products. We hold certifications from laboratories of international prestige in the sector, e.g. TÜV and SGS; those certifications are available on request.

Throughout our history, we have gained the trust of a clientele that is satisfied with the geographical proximity and with the responsiveness of our service. Much of our production is exported to countries with very demanding standards.

We like what we do, and we enjoy choosing each new colour, design, or model for a balloon. Through this brief presentation, we hope to give you an idea of our objectives and concerns, which form a constant reflection of our on-going effort and dedication...
